

SPINOGEN				
ORTHOPEDICS				
SR.NO.	PRODUCT NAME	COMPOSITION	PROUCT TYPE	INDICATION
1	ATA- D3 (SHOT)	Cholecalciferol IP 60,000I.U	SHOTS	vitamin D3 shots and capsules , Treats vitamin D deficiency due to poor intake, low sun exposure, or malabsorption. Manages hypocalcemia in hypoparathyroidism by enhancing calcium absorption.
2	ATA D3 CAP	Cholecalciferol IP 60,000I.U	SOFTGEL	
3	ATECAL - C	Calcium citrate 425mg+calcitriol 0.25mcg+zinc20mg+magnesium oxide 40mg	TABLET	bone and joints elasticity and nourishment suppmiental medication. Treats or prevents osteoporosis and bone loss by enhancing calcium absorption and bone mineralization. Manages hypocalcemia in conditions like hypoparathyroidism or chronic kidney disease. Supports bone health and muscle function in vitamin D and mineral deficiencies.
4	ATECAL - CC	Calcium (As Dicalcium Malate) 400mg + Vitamin D3 400 IU + Glycerine	SOFT GEL	fulfills dietary calcium and vitamin requirement strenthens bones and ligaments, enhance elasticity of muscles.
5	ATECAL - FEM	calcitriol 025mg+calcium carbonate 500mg+soya isoflavones 40% 50mg+vitamin k2-745 mcg+magnesium excipients	SOFT GEL	feminine calcium and vitamin d3 care. Prevents postmenopausal osteoporosis by enhancing bone mineralization. Relieves menopausal symptoms (e.g., hot flashes) via soya isoflavones. Corrects calcium and vitamin D deficiencies for bone and muscle health.
6	ATECAL - HD	Calcitriol 0.25mg+calcium carbonate 500mg+soya isoflavones 40% 50mg+vitamin k2-7 45mcg+methylcobalmin 1500mcg+zinc sulphate monohydrate 7.5mg+magnesium hydroxide 50mg+ L-methylfolate 800mcg excipients	SOFTGEL	Bone and joint suppliment with vitamin K2-7, Prevents osteoporosis by enhancing bone mineralization and calcium absorption. Reduces menopausal symptoms (e.g., hot flashes) with soya isoflavones. Corrects deficiencies in vitamin D, B12, folate, and minerals for bone and nerve health. Supports immunity and metabolism with zinc and magnesium.

7	ATECAL - K2 BENZA-5	calcitriol 0.25mg+calcium carbonate 1250mg+vitamin k2-7 45mcg+ L-methylfolate 800mcg	SOFTGEL	Prevents osteoporosis by enhancing bone mineralization and calcium absorption. Reduces menopausal symptoms (e.g., hot flashes) with soya isoflavones. Corrects deficiencies in vitamin D, B12, folate, and minerals for bone and nerve health. Supports immunity and metabolism with zinc and magnesium
8		Cyclobenzaprine Hydrochloride 5mg	TAB	Relieves acute muscle spasms associated with musculoskeletal conditions (e.g., back pain, neck pain). Used as an adjunct to rest and physical therapy for short-term (2–3 weeks) symptom relief
9	BFEN-20	BACLOFEN 20mg	TAB	Treats muscle spasticity due to neurological conditions (e.g., multiple sclerosis, spinal cord injury). Relieves muscle stiffness, pain, and clonus in chronic spastic conditions.
10	BFEN-30	BACLOFEN 30MG	TAB	
11	C9-SHOT	Bioactive Collagen Peptide Solution 10 gm	SHOTS	Supports joint health by improving cartilage integrity and reducing joint pain (e.g., osteoarthritis). Enhances skin elasticity and hydration, reducing signs of aging like wrinkles. Promotes bone strength and density, aiding in osteoporosis prevention. Supports muscle recovery and connective tissue health in active individuals or post-injury
12	COLCHI - P	PARACETAMOL 500 MG + THIOCOLCHICOSIDE 4MG	TAB	Relieves acute musculoskeletal pain and spasms (e.g., low back pain, neck pain, sprains). Reduces inflammation and discomfort in conditions like osteoarthritis or muscle strains. Supports recovery by combining pain relief (paracetamol) with muscle relaxation (thiocolchicoside).

13	COLCHI -D	Thiocolchicoside 4 mg + Diclofenac Potassium 50mg	TAB	Treats acute musculoskeletal pain and spasms (e.g., low back pain, cervical pain, sprains). Reduces inflammation and pain in conditions like osteoarthritis or soft tissue injuries. Combines muscle relaxation (thiocolchicoside) with anti-inflammatory and analgesic effects (diclofenac).
14	HEAL PLUS (SPRAY)	Lidocaine 2% + Diclofenac Diethylamine 1.16% + Methylsalicylate 5% + Mephenesin 10% + Linseed Oil 3% + Menthol 5% + Propellants q.s to 100%	SPRAY	muscle relaxant spray , sports injury, relief from muskcle spasm.
15	SPEDO 400 ER	Etodolac Extended Release Tablets 400 mg	TAB	Manages chronic pain and inflammation in osteoarthritis and rheumatoid arthritis. Treats acute pain from musculoskeletal conditions (e.g., sprains, strains).
16	SPEDO-T	Etodolac 400mg+Thiocolchicoside 4mg	TAB	Relieves musculoskeletal pain and spasms (e.g., back pain, sprains). Reduces inflammation in osteoarthritis or rheumatoid arthritis. Combines anti-inflammatory (etodolac) and muscle relaxant (thiocolchicoside) effects
17	SPIACE -SP	Aceclofenac 100mg+Paracetamol 325mg +Serratiopeptidase 15mg.	TAB	pain killer, muscle relaxant,antiinflammatory effect and fever related to pain
18	SPIACE -T	Aceclofenac 100mg+Thiocolchicoside 4mg	TAB	Treats pain and spasms in musculoskeletal conditions (e.g., back pain, sprains). Manages inflammation in osteoarthritis or rheumatoid arthritis. Combines anti-inflammatory (aceclofenac) and muscle relaxant (thiocolchicoside) effects
19	SPICORT-6	Deflazacort 6mg	TAB	Treats inflammatory and autoimmune conditions (e.g., rheumatoid arthritis, lupus). Manages allergic disorders (e.g., asthma, dermatitis) to reduce inflammation. Used in Duchenne muscular dystrophy to improve muscle strength and function

20	SPINTRYP- PLUS	TRYPSIN & CHYMOTRYPSIN ACECLOFENAC IP 100MG+ PARACETAMOL IP 325MG	TAB	Relieves pain, inflammation, and swelling in musculoskeletal injuries (e.g., sprains, back pain). Promotes tissue repair and reduces edema post-injury or surgery. Treats osteoarthritis or rheumatoid arthritis with anti-inflammatory and analgesic effects.
21	SPINTRYP-BR	Trypsin 48mg+Rutoside 100mg+Bromoic Acid 90mg+Acelofenac10mg	TAB	Relieves pain, inflammation in musculoskeletal issues (e.g., sprains, arthritis). Reduces edema, aids tissue repair post-injury/surgery. Supports vascular health, inflammation control.
22	SPITAX-D	Metaxalone 400mg+Diclofenac potassium 50mg	TAB	Treats pain and spasms in acute musculoskeletal conditions (e.g., back pain, sprains). Reduces inflammation in osteoarthritis or joint disorders. Combines metaxalone (muscle relaxant) with diclofenac
23	XIB-90	Etoricoxib 90mg	TAB	Relieves pain and inflammation in osteoarthritis and rheumatoid arthritis. Treats acute pain from musculoskeletal conditions (e.g., sprains, strains). Manages acute gouty arthritis and ankylosing spondylitis symptoms
24	XIBLIN SR	Pregabalin 75 mg sr + Etoricoxib 60 mg	TAB	Neuropathic and inflammatory pain (e.g., sciatica, back pain) Diabetic neuropathy and osteoarthritis with nerve pain
25	XIB-MR	Etoricoxib60mg+ Tolperisone Hydrochloride 150mg	TAB	Acute musculoskeletal pain with inflammation and muscle spasm, Low back pain, cervical spondylosis, and muscle spasm- associated joint disorders
26	XIB-P	Etoricoxib60mg+Paracetamol 325mg	TAB	Pain and inflammation in osteoarthritis, rheumatoid arthritis, and musculoskeletal disorders, Acute pain conditions like dental pain, low back pain, and post-operative pain

27	XIB-T	Etoricoxib60mg+Thiocolchicoside 4mg	TAB	Acute musculoskeletal pain with inflammation and muscle spasm, Low back pain, cervical spondylitis, and trauma-related muscle spasms
28	FENOPAM-30	NEFOPAM HYDROCHLORIDE 30 MG	TAB	Moderate to severe acute pain (e.g., post-operative pain, trauma), Musculoskeletal pain and neuralgia unresponsive to NSAIDs or opioids

AMINO ACIDS

SR.NO.	PRODUCT NAME	COMPOSITION	PRODUCT TYPE	INDICATION
1	AMINOGEN	NUTRITIVE INFUSION OF PURE CRYSTALLINE AMINO ACID	INFUSION	Protein-energy malnutrition, Parenteral nutrition in surgical or critically ill patients
1	AMINOGEN	AMINO ACIDS, VITAMINS & MINERALS	TAB	Nutritional support in critically ill or malnourished patients, Supplementation in postoperative recovery and chronic illness
2	E-AMINOGEN	AMINO ACID [10% W/V]	INFUSION	protein and muscle nutrition, post operative recovery.

ANTACIDS / ANTI ULCER DRUGS

SR.NO.	PRODUCT NAME	COMPOSITION	PRODUCT TYPE	INDICATION
1	CANDO-30	Dexlansoprazole Delayed Release Capsule 30 mg	TAB	Gastroesophageal reflux disease (GERD), Erosive esophagitis healing and maintenance, Treatment of heartburn and acid-related stomach disorders
2	CANDO-60	Dexlansoprazole Delayed Release Capsule 60 mg	TAB	Healing of erosive esophagitis Maintenance therapy to prevent relapse of erosive esophagitis Treatment of symptomatic GERD with frequent heartburn
3	GEPANT- L	PANTOPRAZOLE GASTRO-RESISTANT & LEVOSULPRIDE [SR] CAPSULE	TAB	Gastroesophageal reflux disease (GERD) with delayed gastric emptying Functional dyspepsia and acid-related gastrointestinal disorders with motility issues Relief of heartburn, nausea, and gastric discomfort

4	GEPANT-DSR	Pantoprazole 40mg+ Domeperidone 30mg (SR)	TAB	Gastroesophageal reflux disease (GERD) with associated gastric motility disorders Acid reflux with nausea and vomiting Dyspepsia and delayed gastric emptying symptoms
5	GEPANT-O	Pantoprazole 40mg+ Ondansetron 4mg	TAB	Prevention and treatment of nausea and vomiting associated with acid-related gastrointestinal disorders. Management of gastric irritation with emesis (e.g., chemotherapy-induced nausea with acid reflux). GERD with nausea symptoms
6	PINORB-DSR	Rabeprazole 20 mg+Domperidone 30mg.	TAB	"Gastroesophageal reflux disease (GERD) with associated gastric motility disorders Acid reflux with nausea and vomiting Dyspepsia and delayed gastric emptying symptoms"
7	ESOZOLE	ESOMEPRAZOLE DELAYED RELEASE GRANULES FOR ORAL SUSPENSION 1GM	TAB	gasric relief, nausea, vomiting due o multiple drug therapy.
8	ESOZOLE-40	Esomeprazole-40mg	TAB	Gastroesophageal reflux disease (GERD). Healing and maintenance of erosive esophagitis. Prevention and treatment of gastric and duodenal ulcers. Zollinger-Ellison syndrome and other acid-related disorders
9	2-TOUGH	Rebamipide 100mg	TAB	prevent ulcers, particularly those caused by nonsteroidal anti-inflammatory drugs (NSAIDs)

ANTIBIOTICS

SR.NO.	PRODUCT NAME	COMPOSITION	PRODUCT TYPE	INDICATION
1	LYNO - 600	Linezolid 600 mg	TAB	Resistant Gram-positive infections (MRSA, VRE), Skin infections and pneumonia
2	PINOCLAV-CL-LB	Amoxicilin 500mg+Calvulanic acid125mg+Lacto Bacillus	TAB	Bacterial infections (respiratory, urinary, skin), Restores gut flora during/after antibiotic therapy.
3	GENOPENUM	MEROPENEM INJECTION WITH DISODIUM EDTA	TAB	Severe bacterial infections caused by multidrug-resistant organisms, Infections resistant to standard antibiotics, Complicated intra-abdominal, respiratory, urinary tract infections

4	SPINTAZ-4.5	Piperacillin 4gm+Tazobactam 0.5gm	TAB	Severe bacterial infections (respiratory, urinary, intra-abdominal), Hospital-acquired infections, including pneumonia and sepsis, Infections caused by beta-lactamase producing organisms
LAXATIVE				
SR.NO.	PRODUCT NAME	COMPOSITION	PRODUCT TYPE	INDICATION
1	D-FORCE	Polyethylene Glycol 3350 13.125 gm + Sodium Chloride 37.5 + Sodium Bicarbonate 178.5 + Potassium Chloride 46.6 mg	SYRUP SOLUTION	Bowel cleansing before colonoscopy or surgery, Relief of occasional constipation, Promotes complete evacuation of the bowel.
2	SOLU - LAC HUSK	Lacititol Monohydrate & ispaghula husk granules	GRANULES	Chronic constipation, Irritable bowel syndrome (IBS) with constipation, Promotes regular bowel movements and improves stool consistency
GENERAL RANGE				
SR.NO.	PRODUCT NAME	COMPOSITION	Product Type	Indication
3	RECILUS	Bacillus Clausi Spores suspension	SUSPENSION	treat digestive system disorders like diarrhea, constipation, gastric ulcers, irritable bowel syndrome (IBS), Crohn's disease, colitis, malabsorption syndrome,
4	DIACEMIN - CGR	Collagen Peptide 5gm, Magnesium Orotate 875mg, calcium aspartate 500mg, calcium orotate Dihydrate 500mg, Cissus Quadrangularis Extract 500 mg, Ascorbic Acid 40mg, Silicon 10mg, Zinc 7.5mg, Boron 1.5 mg, Pyridoxal 5- Phosphate 1mg, Mecobalamin 750 mcg, l- methylfolate calcium 500 mcg, Vitamin k2-7 45mcg,vitamin D3 25 mcg	TAB	>Bone and joint health support >Osteoarthritis, osteoporosis, and fracture healing >Enhances bone mineral density and cartilage regeneration
5	GLYM INFUSION	Mannitol 10 mg & Glycerin 10 gm	INFUSION BOTTLE	>Reduction of intracranial and intraocular pressure >Cerebral edema and glaucoma management >Osmotic diuretic for acute renal failure prevention

6	MERILONE-40	Methylprednisolone 40mg	TAB	Severe allergic reactions and inflammation, Autoimmune disorders (e.g., lupus, rheumatoid arthritis), Acute asthma, COPD exacerbations, and other inflammatory conditions.
7	L-GIOELE	Glutathione 600 mg	TAB	Antioxidant support in oxidative stress-related conditions Skin brightening and detoxification Liver protection in hepatic disorder.
8	MERILONE - 4	Methyl prednisolone 4g	TAB	Severe autoimmune flare-ups (e.g., lupus, MS), Transplant rejection, Life-threatening allergic reactions (pulse therapy)
9	P-GUT-3	Clarithromycin+pantoprazole+Amoxicillin	TAB	Helicobacter pylori eradication, Peptic ulcer and gastritis associated with H. pylori infection
